

Multimice® New

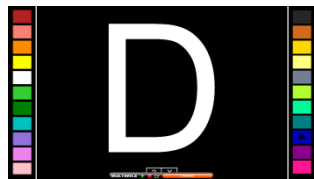

Uses with Educative Freeware

Minisebran : (Awakening to English)

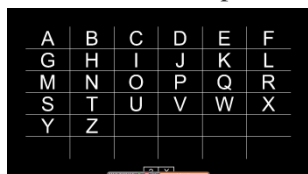

This program includes 8 fun activities:

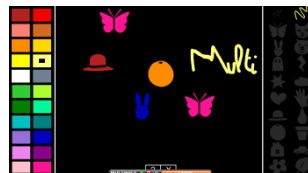

→Playing with letters: a screen appears, when you press a letter key, the letter is read aloud in English and appears in large letter on the screen. You can then draw on the letter with different colors.

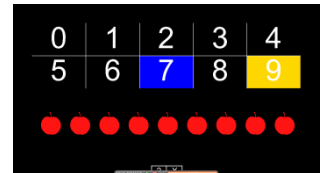

→Playing with alphabet: the letters of the alphabet are present on the screen, by clicking on it or by pressing the keyboard letters, the letter is read aloud in English and background changes color.

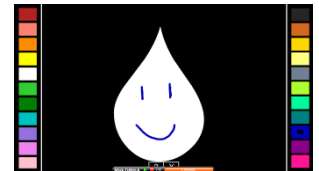

→Draw: a black screen appears, you can draw what you want with different color and a small library of symbols that you can incorporate into your drawing (heart, hat, butterfly, star ...).

→Playing with numbers: the list of numbers appears, by clicking on the number, it is read in English, its background changes color and its representation is displayed (if you click on 3, 3 apples or 3 pears or others will appear).

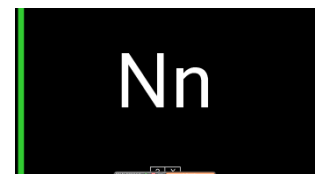

→Draw: a black screen appears. Each key corresponds to a symbol that appears on the screen when you press the button. You can then draw on this symbol.

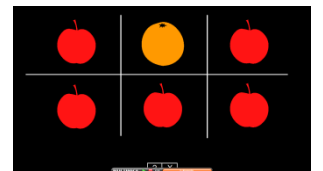

→Playing with colors: A set of color appears on the screen by clicking on it, the color will be read aloud in English. You can also paint on the black background.

→Recognize letters: a letter appears on the screen and is read aloud in English, you will need to press the right key.

→Search the intruder: 6 pictures appear on the screen, one of them has not its place, find it.
